

FLOOR STANDING BUFFER TANKS FOR ACTIVE COOLING
SYSTEMS WITHOUT HEAT EXCHANGERS

V 160 60 ACF PS

Capacity	163 L
Net weight	40 kg
Insulation	50 mm
Heat losses ΔT 45K	49 W
Energy class	B
Maximum operational temperature	95 °C
Maximum working pressure	3 bar
Diameter	600 mm
Minimum height of the premise	1169 mm

Information

V 160 60 ACF PS

- Specially developed to work as part of cooling systems
- Special design preventing condensation (optional set)
- Option for floor installation
- Maximum work pressure of 3 bars
- Appliances can be used as part of heating systems as well

Serie information

V 160 60 ACF PS

Floor-standing appliances specially developed for integration in cooling systems with special design to prevent condensation. Model range includes volumes of 160 and 200 liters.
